### A Mid-Summer Hummer In Sailors.

Our buyer has just returned from market with a beautiful and carefully selected line of new sailors, and some of them are beauties, but we find we have too many, so we will give our customers the benefit and sell them at cut-half the usual selling price. We must have money, so we have decided to close out our stock of trimmed hats and bonnets at ridiculously low figures. All our \$6.00 patterns go now at \$3.00. All our \$5.00 ones at \$2.50. All our \$3.00 hats at \$1.50. They consist of trimmed leghorns, short back sailors, chiffer-bats and hats of every shape and style. They must go now regardless of price, to call and see the extreme low figures we have placed on everything pertaining to head gear. All our chignons, ribbons and flowers are reasonable, mid-summer trimming and for prices cannot be duplicated elsewhere.

### LOCAL LINES.

The little son of Mr. Adam Temple, who was hurt in a runaway several days ago, was yesterday afternoon taken home. His father is not yet able to go.

The insulting language against Isabella Burton was again left open in the police court this morning. It has been on the docket for several days.

This has indeed been a scorcher. The sun has been unobscured since early morn and there has been little or no wind stirring. The mercury must have reached its highest point of the season.

The churches will be just as cool as the resorts and your homes to-morrow. Remember this and be in your occasional place at church.

The council will be in session again Monday night. The meeting of the board will be full of interest. The effort is to be made to kill the ordinance to take the census of the city with the view of making it a second class city. If this is done there is a strong disposition to repeal all the ordinances to improve the city and let the idea that it is large enough now carry in all regards. It is about time the people of the city should be taking action in this matter to keep the city from hitting a snag and reaching a stand still point through the manifested disposition of the council and others to block the growth of the place by a rule or rule policy.

The ladies of the Catholic church will give an ice cream supper at Vester Park next Wednesday night, July 19. All cordially invited. Ice and cake 15 cents.

The steamer George H. Cowling will bring an excursion party up from Metropolis tonight.

Two much ice water and garden truck has given the doctors a better business than they have had for some time.

The cantaloupe melon crop has not yet ripened; the continued warm spell has delayed it.

### CHINESE TYPEWRITER.

It Prints 4,000 Characters, and at That Is Not Cumbersome.

An American missionary in China, Rev. D. Z. Sheffield, president of the Tung-Chu college, has invented a remarkable typewriter, capable of printing the 4,000 characters the Chinese find absolutely necessary for transacting his ordinary business affairs.

The 4,000 characters are grouped in alphabetical order according to their accepted spelling in English, a large number of those most commonly used being placed in a separate group regardless of spelling. The types are cast on the under part of the large wheel, the upper side of which is covered with printed characters, each one exactly over the type it represents. The carriage moves freely to the right or left, and projecting from it there is a pointer which is to locate the characters to be printed. In operation the wheel is revolved with the left hand until the group or line in which the desired character to be found is opposite the carriage, and the carriage is then moved with the right hand to the right or left until the pointer covers the character sought for. To the right will be seen a little crank, one turn of which lifts the type, while a small hammer forces the paper against the type, leaving a clear impression. The type wheels during the printing, and is automatically corrected if slightly out of place, the characters being brought into perfect alignment. The mechanism performs the operation of spacing, etc., as in other machines.

At first thought it would seem that even with this machine the writing of Chinese would be slow and tedious, but when it is considered that the written character consists of from two to twenty-five strokes, which even the best Chinese scholar writes slowly, and that a character signifies not a letter, but a whole word, it will be readily seen that Dr. Sheffield's machine saves a great amount of both time and labor.

BEWARE OF MEAT-EATING  
Mrs. Earnest Beard, who recently made a trip around the world, appears to have come to the conclusion that meat-eating is bad for the temper. She says that in no country is home rendered so unhappy and life made so miserable by the ill-temper of those who are obliged to live together as in England. If we compare domestic life and manners in England with those of other countries where meat does not form such an integral article of diet, a notable improvement will be remarked. In less meat-eating France urbanity is the rule of the home; in rice and rice-eating Japan, harsh words are unknown.

Lincoln Democrat: "The Democratic convention supposed to have been called to nominate candidates for state offices became in reality a convention for wrecking the party. Its like was never before seen, and it is to be hoped, never again will arise."

### THE MAN WHO SUCCEEDS.

Success in business is not to be reached nowadays in the easy-going method that obtained a few generations ago. Times have changed and people have changed with them. Push is the only thing that will carry a man ahead, and it is the liveliest pusher that gets there first. As a general thing the chronic pusher is the chronic advertiser. Printer's ink is the lubricating oil of his business wheels, and he never allows them to lag or crank for want of it. Hard times and poor business are only incentives to increase his advertising, rather than an argument to him for cutting it down. It will pay to be an occasional advertiser to ponder over the publisher's success.

### DISSOLUTION OF PARTNERSHIP

The firm of Walter Wilkins and J. Wes Brown, who have been engaged in the bicycle business under the firm name of "The Excelsior Bicycle Works," is this day dissolved by mutual consent. Mr. J. ### POPULAR EXCURSION VIA C. & O.

The annual excursion to Old Point grows every year in popularity, and those who look forward to a pleasant cutting always hail with delight the announcement of the date for the trip. The beautiful and picturesque scenery all along the line must only be seen to be appreciated and always remembered. The elegant vestibuled train service and the manner in which the C. & O. handles its personally conducted excursions is acknowledged to be far superior to any other line. The outing August 9th will be run upon the same plane of elegance as former excursions.

The exceedingly low rates from Old Point to New York, Washington, Norfolk, Baltimore and other points widens the opportunities, at small additional cost. The hotels at Old Point cannot be surpassed for elegance, superiority of table and imposing splendor. Then an experienced representative of the company is sent with the party to look after every detail and see that nothing is left undone to make the trip all that could be expected.

Those who want to divert their minds from business cares, and enjoy the mountain scenery and ocean breezes, should arrange to go.
